

STANFORD BIODESIGN. SILICON VALLEY.

THE PLACE TO BE FOR HEALTH TECHNOLOGY INNOVATION.

Become a 2024-25 Stanford Biodesign Innovation Fellow!

If you want to develop solutions with the power to change healthcare, you've found the right place:

- Learn a repeatable process for innovation that has been used to help millions of people
- Observe care delivery and interact with patients and providers to uncover unmet needs
- Invent new devices, diagnostics, digital health, and/ or biotech technologies
- Connect to our dynamic network of entrepreneurs, investors, and industry leaders
- Take your career to the next level in a start-up, corporate, or academic setting

Learn more and apply now at bit.ly/BiodesignFellow

The Biodesign Innovation Fellowship is a full-time, paid program at Stanford University that runs from August through June each year. Applications for the 2024-25 fellowship open May 15 and close **August 11, 2023**.

We believe that personal and professional diversity inspires creativity in our teams and helps us innovate effectively for different patient populations. The Stanford Byers Center for Biodesign values the unique path of each applicant and we encourage members of historically underrepresented groups to apply.
